$\text{Corrected Time} = \frac{\text{Elapsed Time} \times 100}{D - PN}$ where <i>Corrected Time</i> and <i>Elapsed Time</i> are in fractional minutes				Note that the "Points" are based on the High-Scoring System. A finisher receives one point plus an additional point for each boat that entered the starting sequence but did not finish ahead of her (corrected time). Note that "Did Not Finish" boats receive zero points but their entry into the starting sequence does affect the points for the finishers.

Race Summary:
 Variable winds leading to beats to and from some marks and runs to and from others. Two short courses (S-1-2-F), plus three long courses (S-1-2-3-F). Four other sailboats on Spring Lake this afternoon were a Puffin, a Laser, a West Wight Potter 15, and a dinghy of unknown design (a hull similar to an El Toro, but not the same rig). Wallace captured the finishing mark with his daggerboard on Race 3, becoming the committee boat for Gail's finish.

Race Summary:																						
Wind was light first race but built through the second race and was squirrely the third race and died when picking up the marks. We all had a good time. Gail thought she would have to not race because her boat got turned over in a puff at the dock and we had to pull it to shore and dump it out. Bob got tired on the way back to the dock after picking up the northern marks and his boat capsized allowing him to swim it to the dock.

Race Summary:																						
We had a great turnout--6 boats! The winds were really shifty, with some legs having both beats and runs. It was hard for the slowest boats to round the second mark so we kept it simple, just two marks and finish. As wind became more predictable over the afternoon, times improved for most everyone. A great day of sailing on Spring Lake! Hope to see everyone at Labor Day or at Spring Lake in the fall. Come to the club meeting on Thursday!
