

2010-2011 SRSC Frostbite Series Details

SRSC Frostbite Race Results: Date: 11/13/10

Race Summary:

Ed Kane and Wallace Whiting started and rounded the first buoy, but the race was called for too much wind, as both skippers fought to keep their boats upright while attempting to tack toward the second mark. Ed estimated the wind at over 15 knots as Wallace planed on a broad reach toward the dock. As Ed, Wallace, and Charlie Dotti waited at the dock for more favorable conditions (with a cap and a whisker pole blown from their positions), it became clear that even retrieving the marks would be adventure enough. All three provided moveable ballast for Wallace's Vagabond 14 under shortened sail (no jib) as the marks were retrieved. But all agreed that any day spent sailing (even if only briefly) is a good day! The Series will be extended through April to make up for this abandonment.

Race Summary:

Winds were very light and practically non existant on this race day. The race day also lived up to its Frostbite name on this cold January day. Despite the conditions 5 intrepid skippers managed to get two races in with the third race not conducted due to the absence of wind.

Race Summary:

Excellent weather and new race course layout greeted our sailors on this race day. The new course was proposed before racing started by our Commodore and consisted of a windward and leeward mark, with the start line layed out between the island and the shoreline. This new layout takes into account Spring Lakes notorious wind shifts.

Race Summary:

Sun, wind, 8 boats racing (including our newest Club member), spectators, a BBQ, model boats, collisions and near collisions (very slight), and even a capsized! We had it all on this quintessential Santa Rosa Sailing Club Frostbite Finale. Many thanks to all who participated, especially Ed Kane who gave up sailing in the last 3 races to officiate. If you weren't there, we missed you -- and you missed a great time!
